

## Job Profile

### Functional Analyst

We are looking for a functional analyst who deals with the definition of the technical-functional requirements and the identification of the appropriate solutions for the Customer's business strategies in the EDI field.

Her/His **responsibilities** will be:

- Collect and analyze the requirements;
- Drawing up of the functional and technical analysis;
- Definition of functional test cases;
- Provide functional and operational support to the development team and the support team;
- Manage the relationship with Customers.

The ideal candidate has the following **requirements**:

- IT or Economic qualification;
- Good analysis and design skills;
- Good organizational and problem solving skills;
- Ability to work in a team and excellent relationship skills;
- Good knowledge of the English language.

Preferential requirement is the availability to travel to Customers or to other locations of TESISQUARE®.

The workplace will be in Assago (MI).

Il presente annuncio è rivolto ad entrambi i sessi, ai sensi delle leggi 903/77 e 125/91.
